

IOTPS Denge Wood Walk Saturday 5th September

Time:

- a) Meet at 7 for some early morning light
- b) For those who like a lie-in we'll cycle back and meet you at 9

Place:

Meet on Pennypot Lane parking at the top of the Forestry Path. If this area is full there is plenty of space to park beside the road just past this area (i.e. to the right of the photo).

The postcode for satnav is **CT4 7HA**. This takes you about half-way down the lane coming from Thanet/Sandwich direction. Keep going until you see this space.

Be aware there is little or no phone signal in the woods.

If you are late for the start at 7, I plan initially to head down this track and circle around the back of the wooded area on the right before looping back for the late risers! The sun rises to the right of the woods looking down the track.

Travelling from Thanet I head towards Sandwich and then go via Wingham. Don't follow your satnav if it wants to take you through Canterbury; it's longer that way. Turn left at Littlebourne and go past Howletts heading towards Bridge then drop down onto the A2, heading for London and come off at the next junction for Canterbury, turning left onto the A28. From here your satnav should take you through Chartham or possibly past the turn for Chartham and up Shalmsford St instead.

What to photograph: insects, trees, flowers (if the drought hasn't pushed them all over!). It's probably too early for fungi.

What to wear: I always recommend wearing trousers when walking in woods that contain deer as deer mean potential for ticks. **Having said that I have never heard of any issue with ticks in Denge Woods.**
